EDUCATION SUPPORT

## Parent Consultations

Every family is unique, so my services are flexible to meet your particular requirements. Here are just a few suggestions for the sorts of things I can help you with.

- EHCP support - for example making a parental application, completing family contribution forms, preparing for an annual review meeting.
- Understanding professional reports – guiding you through the terminology, helping you put recommendations into meaningful action plan.
- Discussing concerns and advising on different options for support. This might be in relation to consulting with specialists.
- Researching school choices including accompanying you on visits.
- Autism and ADHD support – navigating diagnosis options, support for the whole family both pre and post diagnosis.
- Supporting your child’s learning at home – ideas and resources for you to use with your child.
- Workshops and webinars – look out for adverts on Facebook and Instagram.

If something you need is not on this list, please get in touch and we will put together a bespoke package of support designed especially for you.
